

**REMARKS**

2 Applicants have amended specification to claim domestic priority to the parent, U.S.  
3 Application No. 09/782,198 (the '198 application). On page 9, line 7, the specification  
4 which formerly read "U.S. Patent Nos. 5,847,307 and 5,905,226" in the '198 application  
5 is now amended to read "U.S. Patent Nos. 5,847,309 and 5,905,226." It is submitted  
6 that the correct patent number is readily apparent since U.S. Patent No. 5,905,226 is  
7 stated to be a divisional of U.S. Patent No. 5,847,309, and to have the same inventor  
8 and title.

10 Please call the undersigned if you have any questions, comments, or if it will expedite  
11 the progress of the application.
